

ZENO-WATCH BASEL

Setting Instruction Diver Automatic

Thank you for purchasing an original ZENO Timekeeper. To ensure correct use, please read these instructions carefully:

Setting Time + Calendar

- 1 **neutral position** (unscrew crown first)
= winding position
- 2 **day + date adjustment position** (not all watches!)
-Date: turn crown clockwise ☺
-Day: turn crown counter clockwise ☹
- 3 **hand setting and second stop position**
- Adjust hour and minute by turning the crown

Correction cannot be effected between 8pm and 2am. While turning the hands please observe that date will change at 12pm (midnight). **Army-Diver's without Quick setting-Date!**

The Register Ring is convenient way to keep track of diving time, permitting the indication of the elapsed and remaining times. Turn the register ring counter clockwise ☺ while pushing it. It is locked under normal conditions to prevent free rotation, and can not be turned in the reverse direction for safety reasons.

Determination of elapsed time: Preset the mark on the register ring to the minute hand, and the elapsed time can be shown by the register ring scale. (Example 10 minutes)

Determination of remaining time: Preset the mark on the register ring to a certain required time, and the remaining time can be shown by the register ring scale.

Be sure to check the following points when use for diving:

Before Diving - There are no cracks in the case, bracelet, no scratches or chipped portions in glass of the watch; - The time has been properly set; - The crown is properly in lock position; - The register ring properly rotates counter clockwise. It does not rotate clockwise (never force to rotate it at this time); - The band should be fastened tightly to watch case.

During Diving - Be sure not to operate in water; - Be careful not to drop or hit the watch against a rock or other hard items;

After Diving - Wash the watch with fresh water to prevent rust formations due to sea water; - Wipe off water droplets adhering to the watch after washing;

Specifications

Precision Swiss self-winding movement (automatic) time, day and date indication, Incabloc anti-shock system, Nivaflex spring, tight tolerance of adjustment, power reserve till 30 hours. (not all watches!)

Be sure to use the watch with the crown tighten completely. Do not operate the crown with wet fingers or when the watch is wet. If moisture has entered the watch, or if the inside to the crystal is fogged up and does not become clear within a day, or seawater enters the watch, immediately the watch to a Zeno Service Centre for repair. Leaving the watch in such a state will allow corrosion to form inside. Keep your watch clean. Dust and dirt tend to collect in gaps in the back of the case or band. Accumulated dust and dirt may cause corrosion and soil your clothing. Clean the watch occasionally. Use a soft dry cloth to wipe off dirt, perspiration and water from the case and crystal. Do not use the watch in places where it is exposed to high temperature. Doing so may result in deterioration of the watch or parts. Do not place the watch to a magnet. Store your watch in a dry place when you are not using it. Further information see guarantee card! For any irregularity found immediately contact the store where you purchased the watch or an authorized ZENO Dealer.

Please be sure to check the ZENO-WATCH internet Web site for the latest listing of World Wide Service Centres at www.zeno-watch.ch

Have you got a problem with your watch?

Your nearest ZENO Represent is usually the best place to contact for help, and it should certainly be the first.

1. Please contact first your ZENO dealer and ask for a Service-Centre in your country.
(You will find the address of your dealer in the guarantee certificate)
2. In case there is no Service-Centre in your country, please send the watch back to your dealer or to the worldwide Service-Centre:

ZENO-WATCH BASEL
Service-Centre - P.O. Box
CH-4013 Basel (Switzerland)

Please send your watch, carefully packed, together with \$ 10.- in cash (to cover return postage and handling charges), the guarantee certificate, completed with your correct name and return address.

For costume reasons please declare the goods to be R E P A I R E D !!!

Repairs without original and signed international ZENO guarantee certificate or after the guarantee period will be charged. Owner will be charged for postage, insurance and such costs as may be incurred outside the normal repair costs under the guarantee. For those customers requiring their watches to be repaired in countries other than those where the purchase was originally made, repair services are available though it is to be acknowledged that it might take somewhat longer than normal.

Our service is, of course, also available after the guarantee period has expired for repair and maintenance work against an appropriate charge. [Payment in advance]. Sometimes it is cheaper to contact first a qualified watchmaker in your area. (He must have experience with Swiss Watches!) Please ask your watchmaker for a free estimate!

Please note that ZENO only ensures full warranty when the ZENO watch is bought directly from one of the authorized dealers. The warranty certificate must be properly stamped, signed with the dealers name and show the exact date of purchase.

Only authorized ZENO retailer or other authorized Service Centres are qualified to ensure proper after-sales service and are authorized to provide the warranty services in accordance to ZENO quality standards.

The water resistance is only guaranteed if the watch is declared by "waterproof" and the watch has not been subjected to severe shocks, the crystal and crown are not damaged, and the instructions have been carefully followed.
